

NOTICE OF ROAD CLOSURE
VETERANS PARKWAY PROJECT

Fayette County Department of Public Works will temporarily close a portion of Veterans Parkway (formerly Tillman Road) to through traffic as construction of a storm water culvert gets underway. This work and closure is located between the new intersections of Sandy Creek Road and Tillman Road (gravel road) along Veterans Parkway. The purpose of this road closure is to install a series of concrete culvert pipes at the existing stream crossing that will accommodate new roadway construction in this area. This temporary road closure will be in effect starting Tuesday, September 4, 2012, with a scheduled completion date of Wednesday, September 18, 2012. Please be advised that once construction begins, unexpected weather conditions could extend the planned completion date. Access will be available at all times to local traffic residents and their guests living within the limits of the road closure. However, no access will be available to anyone across the creek until this work is completed. A temporary detour using Sandy Creek Road and Eastin Road has been set up to aide those unfamiliar with the area needing access to the other side of the creek. The attached plan shows the proposed detour route that will be in place during the road closure.

Should you have any questions regarding this road closure and detour, please contact Public Works at (770) 320-6010 or publicworks@fayettecountyga.gov.
